

**Subject: Reference for WMK Consulting Inc.**

**To Whom It May Concern**

**AS Owner and Executive Project Manager for all HCA Capital Projects in California I would like to relay my experience working with WMK Consulting led by Bill and Mindy Koenig as IORs on multiple hospital projects for HCA. As Owner it's of utmost importance to have the right Inspection team. When I first took over California for HCA 15 years ago, we had a lot of trouble finding competent IORs.**

**WMK Consulting led by Bill and Mindy are some of the best IORs I have ever worked with and as a result I have used them and their team continually on all five HCA facilities in California on over \$750 million dollars of construction. Bill and Mindy have put together a team with exceptional knowledge of HCAI-OSHPD requirements and conduct their Inspections in a way that promotes teamwork and good communication among all parties. They have the rare ability to be respected and liked by HCAI-OSHPD, the Architects of Record, The Contractors, and the Owner at the same time while helping to complete projects with a minimum of interruptions.**

**WMK's extraordinary communication skills help give our team confidence that our project will be accepted by HCAI with a minimum of issues, and that we can achieve HCAI-OSHPD Occupancy of the project at completion without undue delays.**

**Over the course of the last several years WMK Consulting has provided us with excellent IOR services, reporting and documentation that was needed to complete our projects on time.**

**WMK's commitment to good communication kept HCA apprised of all critical issues throughout the course of the projects. They were always available to the team and were responsive, professional, and informative.**

**Over my many years working in HCAI-OSHPD construction, I have worked with several inspectors of record. I am currently working with WMK Consulting on multiple projects and would recommend their senior staff as head IOR on projects of any size and scope. I can only give them my highest recommendation.**

**Sincerely**

***Ken Kulaga***
